

Yi-Ping Lin

Yi-Ping Lin is Assistant Professor in the Center of Health Risk Assessment and Policy at National Taiwan University. She received her Ph.D. in Health Policy and Management in 2003 from National Taiwan University. She also has graduate degrees in Cognitive Psychology from National Taiwan University, and Bilingual Education from Boston University.

Her research interests and publications focus on the communication and management of environmental health risks. Her current research includes the public concerns and risk perception of electromagnetic fields and nanotechnology.

Working in the newly-founded Center of Health Risk Assessment and Policy, Yi-Ping Lin has been teaching, publishing, and speaking about risk communication and management. This center offers seminars on various aspects of health risk assessment as well as sponsoring scholarly research and serving as a resource to the government.
